EXPLANATORY NOTICE.

The present catalogue of the Alumni and other graduates of Columbia College is the ninth which has been published since the re-organization of the College under its present title in 1787. With the fifth, published in 1865, the attempt was for the first time made to indicate the professions or occupations of the graduates, and to present a record of the honors, of whatever kind, which have been conferred upon them. Such an attempt, in the absence of any written record regularly kept at the College or elsewhere of matters of this nature, could not but be, to a certain extent, unsuccessful ; and accordingly in the issuing of the catalogue of 1865 no credit was claimed for that publication on the score of perfection or completeness. The publication was avowedly made, in the form adopted, quite as much in the hope of eliciting, by means of the interest it might excite, additional information in regard to the personal history of the graduates, as of giving a permanent form to the information already obtained. This hope has not been wholly disappointed. A number of the Alumni of the College have kindly contributed important additions to the knowledge which had been previously gathered in regard to members of many of the earlier classes ; and in consequence of this assistance, the present edition of the catalogue will be found to exhibit a sensible improvement on those which have gone before.

Copies of this catalogue will be sent, as in 1865, in 1868, in 1871, and in 1876, to all the living Alumni whose residences are known. Those who may not receive it may be assured that the omission is owing only to want of information as to their proper addresses. They will be promptly supplied, on application, by post or otherwise, to the President, at the College.

Notwithstanding the considerable success which has attended the efforts made to supply the deficiencies of former publications, the imperfections which will doubtless be detected in the present one can hardly fail to be numerous. This prefatory note cannot, therefore, be better concluded than by once more repeating the request earnestly made on former occasions, of every graduate into whose hands the catalogue should fall, that he would communicate to the President, or to Professor Van Amringe, at the College, any information which may serve to improve it in future editions ; completing first his own record, should he find it deficient, and adding any important facts within his knowledge, which the catalogue does not contain, in regard to any other graduate or graduates.
